ReBuairtel captioned "Investigation of the New Left, Key Activists" dated 1/30/68.

The captioned subject was designated in relet as a key activist based upon his leadership within the SDS.

Recent evidence on various college campuses has brought out a revolutionary character of SDS and points out a real danger to the internal security resulting from the activities of this group.

A review of [REDACTED] files has been completed at the Bureau and the following observations, bearing on your investigation of the subject, are noted.

b6
b7C

ReBuairtel instructed that you review the live, day-to-day coverage you have available to furnish information on the subject. By letter 2/15/68 you advised that you have two informants who were acquainted with the subject, neither of which was in contact with him on a day-to-day basis. This coverage does not appear to be adequate and you should critically review your investigation for the live informant coverage you now have available. Immediate steps should be taken to improve this coverage so that you will be aware of [REDACTED] day-to-day activities. This information is particularly important in view of the fact that SDS leaders are conducting extensive travel throughout the Nation and abroad. It is incumbent upon your office to be able to furnish advance information concerning the proposed travel of the subject. This information should be furnished to the Bureau and interested offices promptly in order that appropriate dissemination can be made.

No information was located in Bufiles to indicate that your investigation has been directed toward fully developing the subject's financial activity. You should, therefore, institute an investigation of his finances and continue your surveillance into this phase of the investigation in order that you will be fully aware of the sources of his funds.

There is no information in Bufiles to indicate that you have considered the use of telephone toll checks to determine the subject's contacts. A specific request for authority to make such checks should be made of the Bureau prior to conducting this phase of your investigation.

In evaluating your investigation you should bear in mind that one of your prime objectives should be to neutralize [REDACTED] within the new left movement. The Bureau will entertain recommendations of a counter-intelligence nature to accomplish this end. You should, therefore, promptly furnish the Bureau with your suggestions as to how this might be accomplished. Take no positive action, however, in this regard until you have received specific Bureau authority.

b6
b7C

Due to the current situation, a cursory investigation of the subject cannot be tolerated. You will be expected to pursue it aggressively and with imagination. Reporting should be complete and prompt.

For the information of the Bureau, NYlet to Newark dated 5/22/68, requested that office at Newark, New Jersey to review indices on subject and his parents and furnish the NYO any pertinent information concerning them; at [REDACTED] to (1) Review records of Local Draft Board concerning the subject and obtain all pertinent background information, including his current draft status; (2) Conduct a credit check on subject's father or conduct other appropriate investigation to determine subject's father's current employment (He has been a [REDACTED] in the past); and at [REDACTED], will, if investigation reflect's subject's father is not employed by [REDACTED], determine if subject has an account with [REDACTED] and if so, develop a source at the bank in order to monitor subject's account for pertinent checks and deposits on a monthly basis.

SUGGESTIONS OF A COUNTER-INTELLIGENCE NATURE

(1) Upon completion of leads set out to Newark as stated above, it is felt that an interview of subject's father to determine his attitude toward the subject and his activities might prove productive. It is very probable that subject receives his support through his father and if his father is not in favor of subject's activities, he may begin to withdraw that support. There is also a possibility that subject's father may prove to be a very good source of information to furnish advance information concerning proposed travel of the subject.

(2) If an interview of subject's father proves unproductive, anti-SDS material, which may be authorized by the Bureau in the near future under the Counter-Intelligence Program directed towards the New Left, might be sent to subject's father's place of employment.

For the information of the Bureau, counter-intelligence actions in this matter will be handled under NY file 100-163303 (COUNTER-INTELLIGENCE PROGRAM; IS; DISRUPTION OF THE NEW LEFT.)

In view of the above suggestions, Newark Division is requested to expedite leads set out in NYlet to Newark, dated 5/22/68, by 6/27/68.

ReMemo captioned as above and dated 6/10/68 instructing that established sources be contacted at the Nassau County Community College for pertinent information pertaining to the SDS and other New Left organizations. b6 b7C b7D

On 6/12/68 [REDACTED] (Protect Identity) advised there is a Student Chapter of SDS on the campus and that [REDACTED] is the Chapter President. He stated that [REDACTED] is graduating from the College this June, Source stated he has no knowledge as to the identity of the new president, or if in fact the organization has elected a new slate of officers. SOURCE was unable to furnish the identities of any of the members except [REDACTED] stating that as far as he knows there is no public listing of the members in existence. Internal Security

1. Identification of New Left Organization

In March, 1966 a source who has furnished reliable information in the past, advised that at that time a chapter of the Students For A Democratic Society (SDS) was operating on the campus of Sarah Lawrence College, Bronxville, New York.

SDS is characterized in the appendix attached hereto.

The "Emanon", a campus newspaper, Sarah Lawrence College, issue of March 7, 1968, page 1, noted that on the previous evening a group of students had met to form a chapter of the SDS on the campus of the college.

The "Emanon", issue of March 13, 1968, page 2, contained a letter critical of college administration at Sarah Lawrence for its failure to provide accommodations for overnight male guests on campus. This letter was signed "Sarah Lawrence, SDS".

On June 26, 1968, a second source who has furnished reliable information in the past, stated that during the 1967-69 school year a small chapter of SDS functioned on the campus at Sarah Lawrence College. This source stated the college had closed for the summer vacation and no information had been received to indicate the SDS chapter would return to the campus in the Fall of 1968.

2. Identity of Leaders of SDS at Sarah Lawrence College

The "Emanon", issue of March 7, 1968, identified the following students at Sarah Lawrence College who had met to

The following colleges and/or universities were reported to have had SDS or other New Left organizations on campus in the past which are no longer functioning. Accordingly, no letterhead memorandums were submitted under this program:

1. Adelphi University, Garden City, Long Island, New York

In February, 1966, [REDACTED] reported there were at that time eleven members of the SDS at Adelphi University.

b7D

The December 5, 1967 issue of "Newsday", a daily newspaper published on Long Island, reported that a small chapter of SDS at Adelphi had collapsed after students had expressed fear that radical SDS positions would harm their careers.

No information has been received from any source reflecting any 1967-68 SDS activity at Adelphi.

2. Hofstra University, Hempstead, New York

On 6/12/68, [REDACTED]

[REDACTED], advised SA FRANCIS J. SANDIN, that there was no SDS chapter at the university and that none existed on the campus during the 1967-68 school year. He stated that prior to September, 1967, a vote was taken by the student body on this question and the students themselves decided not to permit SDS on their campus.

[REDACTED] further stated that to the best of his knowledge no organizations which might be termed "New Left" are on the campus at Hofstra.

COMTELPRO - NEW LEFT

ReBulet 8/2/68, concerning possible counterintelligence action against ROBERT GREENBLATT and JERRY RUBIN, leaders of the National Mobilization Committee to End The War In Vietnam, both of whom are free on bail following arrests on narcotics charges.

On 8/8/68, United States Customs Agent [redacted] New York, advised SA EDWARD A. MC SHANE, JR. that ROBERT GREENBLATT was arraigned before U. S. Commissioner JOSEPH W. KELLEY, Plattsburgh, New York on 6/21/68, charged with violation of Title 21, Section 176(a), which is smuggling of marijuana and Title 26, Section 4744(d), which is the evading payment of tax on marijuana. He was committed to the Clinton County Jail at Plattsburgh in default of \$1,000 bail. He made bail on 6/22/68 and was released.

b6
b7C

On 8/8/68, Commissioner KELLEY stated there is no travel restriction against the subject while on bond and that the bond is returnable in the Northern District of New York whenever subject is called. There is no restriction against subject leaving the State of New York or the United States.

On 8/12/68, [redacted] NYC, advised JERRY RUBIN is currently free on bail following his arrest on 6/13/68, on narcotics charges. [redacted] stated RUBIN is under no restrictions as to travel outside the city and state of New York. He is also under no restriction as to foreign travel.

b6
b7C

In view of the above, it appears that GREENBLATT and RUBIN may attend the Democratic National Convention in Chicago, Ill. in August, 1968, without violating their respective bonds.

Informant advised that one of the major topics of conversation at this meeting was a hasty letter allegedly sent by the Radical Organizing Committee (ROC) to the YSA. Informant advised that this letter blamed the YSA and the CP for the breakup of the SMC and the members at the meeting were upset over the one expression used in the letter as "collective asses." The informant said that some members were attempting to laugh the letter off but the informant advised that it was possible to tell that the membership was really "seething" about this letter. (U)

The informant advised that the leaders of the meeting stated that they had been talking to [REDACTED] and after this talk, came to the conclusion that the demonstration at the Democratic National Convention in Chicago, was to be a pro-MC CARTHY demonstration and, therefore, the SWP would not participate in these demonstrations; however, local Midwest branches of the SWP will be expected to send some individuals to the convention in order to sell "The Militant." It was also brought out that the people supporting these demonstrations will march at the convention site on 8/27/68, in an attempt to ruin President JOHNSON's birthday party. (U)

COINTELPRO - NEW LEFT

Reference is made to Bulet dated 6/13/68, relative to statistics being compiled by the New York City Police Department and New York City Fire Department re undue violence directed at members of those departments.

Reference is also made to Bulet dated 8/28/68, re possible violation of United States Postal regulations by "Rat".

Enclosed for the Bureau is one copy of the 1967 Annual Report of the New York Police Department.

On 9/25/68, Chief Fire Marshal VINCENT CANTY, advised SA FRANK J. MEYERS that during the year 1967, six members of the NYCPD were injured in the line of duty by violence directed against them by residents of various ghetto communities. He stated that, through 9/24/68, 24 members of the department have been injured in the line of duty by violent actions against them by ghetto residents.

CANTY stated that no members of his department have been injured by actions which could be attributed to anti-war demonstrations and/or actions of the New Left.

In September, 1968, SA AUGUST J. MICEK secured a copy of the 1967 Annual Report of the NYCPD. These yearly reports constitute a statistical summary of the Department's operations including various tables relative to injuries resulting from assaults on police officers. Page 21, for example notes that in 1966 366 officers were injured by assault, while in 1967, 457 officers were so injured.

The above statistics, however, do not break-down police injuries into specific categories relating to those suffered by assaults by ghetto residents and/or demonstrations which can be laid at the door of the New Left.

b6
b7C

A. The SWP got on the Ballot in Rhode Island
(first time it has ever been on the ballot in that state).

B. This Saturday (August 17)
and next Saturday (August 24) there will be a mobilization
of the Branch to go to Connecticut for petitioning to get on
the ballot there.

1. The organizer's report was accepted.

IV. Antiwar Report: [redacted]

b6
b7C

A. Democratic Party Convention in Chicago: The
SWP will not support it. The SWP feels (after checking over
[redacted] opinion) it is a demonstration for MC CARTHY
rather than an antiwar demonstration. On August 24th and
25th the SWP will send one carload from each midwest
local to distribute a 12-page Militant issue outside of
the Democratic Convention.

B. Re ROC (Radical Organizing Committee); ROC sent a
nasty letter to the YSA accusing the YSA of breaking up the
SMC (Student Mobilization Committee). There were various
vulgarisms in that letter, stating to the effect that the
YSA tried by force to force its line and program upon the
SMC (i.e., the YSA tried to "shove" its program "up our
collective a-----.") In that same letter, ROC also
attacked the Communist Party. The letter stated that the
CP "died two decades ago" and said words to the effect that
GUS HALL is living high off the hog.

NY 100-4013

[redacted] also mentioned in this portion of his report that [redacted], of ROC, left New York City to take a job with Ramparts Magazine.

b6
b7C

C. [redacted] reported that on September 21, 1968, veterans and Vietnam veterans will hold a demonstration. These veterans now issue their own magazine called "Task Force."

NEW LEFT MOVEMENT
(KEY ACTIVISTS)

67-1777-5284A 6/68
New Left
*100-158043 **

In January, 1968, the Bureau designated certain individuals as Key Activists in the New Left movement. At that time, appropriate offices were instructed to conduct continued and intensive investigations of these individuals with the objective of developing detailed and complete information regarding their day-to-day activities and future plans for staging demonstrations and disruptive acts directed against the Government. These individuals were extremely active and most vocal in their statements denouncing the U. S. and calling for civil disobedience and other forms of unlawful and disruptive acts.

Due to the success of the Key Activists Program, consideration is being given to expansion of this Program. Recipient offices are to review pertinent files to determine those individuals who are leaders or prominent in the New Left movement in their divisions for possible inclusion in an expanded Key Activists Program. In making this determination, you should consider if the individual was rendered ineffective would it curtail such activity in his area of influence.

Report to SAC, Albany et al
RE: NEW LEFT MOVEMENT
100-446997

Within 30 days of receipt of this communication, recipient offices are to advise under this caption the identities and file numbers of individuals to be included under the expanded Key Activists Program on a UACB basis. Included should be a brief statement relating the basis for designating each individual as a Key Activist. At that time, under individual case caption, a communication is to be forwarded to the Bureau outlining what specific steps are being taken to obtain adequate informant coverage of the individual.

It is expected the Key Activists Program will be given intensive investigative attention and close supervision by participating offices. You should be continuously alert to recommend additions or deletions where warranted and not wait for the Bureau to call to your attention the need to include an active, obvious leader of New Left activities in your division. Such communications should set out Key Activist in parentheses after the character and contain adequate justification for recommended action. Key Activist should not, however, be used in the caption of any communication prepared for dissemination. These individuals will be included in the Security Index in Priority I.

To insure that the Bureau is kept abreast of the day-to-day activities of the individuals designated as Key Activists, each office must maintain high level informant coverage on them as well as the organizations they are affiliated with to develop information regarding their sources of funds, foreign contacts and future plans. Live informant coverage of these individuals and groups is absolutely essential and is expected to receive priority attention. You should explore all avenues of investigative coverage and submit any recommendations under appropriate case caption for consideration by the Bureau.

All investigative matters pertaining to the New Left movement are being closely followed by the Bureau. Key Activists are considered to be of primary investigative importance and cursory handling of these cases will not be tolerated. The overall objective of this Program is to render Key Activists ineffective and thereby radically restrict their influence and the effectiveness of the New Left movement. In order to obtain the desired results, it is expected intensive, aggressive investigation will be afforded these cases.

Del to SAC, Albany et al
: NEW LEFT MOVEMENT
100-446997

It is imperative to note the shift to violence in the New Left movement. Sabotage, arson, bombing and a variety of obstructive tactics have been openly advocated during the past year. In September, 1968, within a five-day period three ROTC establishments were sabotaged and a fourth threatened. In addition, a Central Intelligence Agency office at Ann Arbor, Michigan, was bombed during that month. These instances of openly made plans for violence and the brazen follow-through of action are examples of the problems facing the Bureau in this field and the absolute need for intensive investigative efforts in these matters. Successful prosecution is the best deterrent to such unlawful activity. Intensive investigations of Key Activists under this Program are logically expected to result in prosecutions under substantive violations within the Bureau's investigative jurisdiction.

SUPERVISOR THOMAS J. CROKE #42

NEW LEFT MOVEMENT
(KEY ACTIVISTS)

ReBuairtel dated 10/24/68, a xerox copy of which is attached.

A review of the above indicates the Bureau is desirous of expanding the Key Activists Program in the New Left. It is requested, therefore, that each Supervisor to whom a copy of this memorandum is designated, arrange to have all New Left pending and closed cases previously assigned to their respective squads, reviewed, to determine if any of these individuals qualify as a Key Activist. In making this determination, the Bureau instructs, that you should consider if the individual was rendered ineffective, would it curtail such activity in his area of influence.

If determination is made that an individual qualifies as a Key Activist, a separate communication in subject's caption, must be forwarded to the Bureau, notifying them what specific steps are being taken to obtain adequate informant coverage of the individual. In addition, the reviewing agent must furnish his Supervisor with an 8 x 10 size sheet of paper listing the following information:

- (1) Name
- (2) Bufile
- (3) New York File
- (4) Brief statement relating to basis for designating individual a Key Activist.

Agents handling New Left organizational cases should be especially alert to individuals within their organizations, who qualify as Key Activists. The identity of these individuals, together with their New York file number, should be promptly brought to their Supervisor's attention for appropriate file review.

The above project, together with your recommendations, must be completed and the results brought to the attention of Supervisor CROWE by NOVEMBER 12, 1968, in order to meet the Bureau deadline.
